Be Free

Be Aware

## WAUC Leadership Freediving Courses

Sign up for a weekend of free-diving! Financial club members are invited to apply for one of three summer weekend workshops on free-diving. Successful applicants will receive a subsidised Apnea Australia Freediving Course for \$225 (RRP\$550) and will share their learning by giving attention to, and educating new freedivers in freediving / spear-fishing equipment and safe boating, fishing and diving practises.

*Our aim is to build a strong knowledge base to help our members develop into more aware spear-fishers and free-divers. This initiative was made possible by a small community grant from Recfishwest with the support of the Department of Fisheries.*
